

Hangerlogic expands Service in UK Market

August 22, 2013

Hangerlogic is pleased to share some exciting strategic changes that we are soon to be implementing for our UK operation.

In order to meet the growing needs of the business, **Hangerlogic** will be moving their UK warehousing, logistics, customer service, sales and back office functions over to **MONRO** located in Leicestershire.

Planning for a successful future, this move greatly enhances our UK based warehousing and distribution capabilities. It also means increased service for our customers with a team of 7 knowledgeable sales professionals that are supported by a dedicated back office customer service and logistics team to help things run efficiently and to delivery on our global promise of service excellence.

We are very delighted with the appointment of our new business partner in the UK which we are sure will continue to deliver the excellent service and attention to detail that you have come to expect from your dealings with **Hangerlogic**.

We will be in touch in the coming weeks to outline in more detail the timing of the transition in the UK as well as to review any other points so that we can ensure things will continue to run smoothly.

In the meantime, our customers in the UK can continue to place orders and inquiries as usual with Lyn Fox in customer sales support at lyn.fox@hangerlogic.com

Melvyn Coupland, Managing Director of **MONRO** will also be happy to answer any questions and can be reached at melvyn.coupland@monro.co.uk

We look forward to being of continued, valued service as your preferred choice in the supply of hangers by continuing to deliver on our promise to provide the quality solutions you need with the service excellence that you deserve.

If you have any questions, please feel free to contact us at your convenience - we are here to be of service.

Sincerely,

R. Kevin Atkinson
President
