

Sears honours Hangerlogic as a Partner in Progress

May 23, 2012

Hangerlogic is most pleased to announce that for the second time has been awarded the prestigious Partners in Progress Award by Sears.

The Partners in Progress award is presented annually to a select group of supplier partners that provide Sears with the highest standards of excellence in quality products and services.

Partners in Progress was started more than 25 years ago and is a testament to the value that Sears places on having strong supplier relationships while at the same time recognizing each of those suppliers who have who have gone above and beyond to support the continued success of Sears business.

Hangerlogic is Sears exclusive partner in the supply of hangers supporting Sears with global supply in local markets around the world. Sears hangers are made in reusable and recyclable materials to meet Sears commitment to social responsibility and sustainability. Hanger reuse is managed by Hangerlogic GOH+R[®] process whereby after the garment is sold the hangers are recovered either for reuse or the scrap is converted into a reusable state so that no hanger waste ends up in landfill providing Sears with a totally eco-logic[™] solution.

Love your hangers!
